Assembly Instructions

Step 1: Feed the braided fabric cord into the canopy until the desired amount of cord is left between the canopy and pendant.

Take into account that a *minimum* of 6" of cord will be required for wiring connections

Step 2: Use the measuring tape to ensure that each of your pendants are hanging the desired distance from the canopy.

Tighten the cord grip using a Flat-blade screwdriver. **DO NOT OVER TIGHTEN. THIS MAY DAMAGE THE FIXTURE.**

Step 3: Make wire connections

Step 4: Mount the canopy to the ceiling using the provided Mounting Instructions.

Step 5: Screw bulb into Socket. Un-screw Retention Nut.

Step 6: Raise the Retention Cap up the Stem.

Step 7: Carefully slide Handblown Glass over the installed bulb by tilting the Handblown Glass until the Retention bar is able to fit inside the Mouth. Continue until the entire Retention Bar is inside, and slightly under, the Mouth.

Step 8: Slowly allow the Handblown Glass to fully rest on top of the Retention Bar. Ensure that the Retention Bar is rotated parallel with the shortest diameter of the Mouth. The size and shape of the Mouth may vary and may not be a perfect circle. Position Retention Bar so that the maximum amount of the Retention Bar is resting on the handblown glass.

Step 9: Once Handblown Glass is securely resting on the Retention Bar, lower the Retention Cap and tighten the Retention Nut until snug. **DO NOT Overtighten!**

HAMMERTON STUDIO

When we introduced the Hammerton Studio brand in 2014, we saw an enormous opportunity to raise the bar in decorative lighting. In design, we wanted to lead rather than follow. In construction, we wanted to showcase Hammerton's renowned reverence for time-honored artisan craftsmanship and authentic materials. In performance, we wanted to provide highly reliable solutions that far exceeded industry norms for aesthetics, function, and quality. Based on the brand's dramatic growth and customer feedback, it's clear we are on the right track.

EXTRAORDINARY DESIGN VALUE IN ARTISAN GLASS & METALWORK

Hammerton began in 1995 as a blacksmith shop, but we've come a long way since then. Today we employ a world class team of metal artisans who are disciplined in a broad range of fabrication techniques and processes. We've also added in-house capabilities in blown, cast and kiln-fused glass, and today Hammerton operates one of the largest artisan glass production facilities in the U.S. With deep design and fabrication expertise at the intersection of glass and metalwork, we're laying the foundation for a new era of lighting innovation.

THE HAMMERTON HERITAGE

Our Hammerton Studio brand stands on the shoulders of more than a quarter century of experience pushing the boundaries of innovative custom lighting design. Each Hammerton Studio collection has been inspired by custom work our company has brought to life in collaboration with leading interior design professionals over the years.
